

### **Comments from the parental questionnaire, March 2015**

MY CHILD LOVES THE SCHOOL WHICH IS EXTREMELY IMPORTANT FOR US.  
VERY HAPPY IN SCHOOL.

We LOVE BESA!!

We like the consultation being held from time to time whenever there was important event relating to our child's learning.

The environment at BESA is very welcoming and the children enjoy being at school. A happy child learns well and BESA staff make learning enjoyable. This is the most appealing aspect of BESA.

I like the cozy atmosphere. The school is not too big and not too small, and this gives it a familiar tone. Teaching standards and how the kids are treated are indeed praiseworthy. Administration is approachable and accountable, and the level of communication with and guidance provided to parents is adequate.

The approach to children as individuals is perfect. I entered a lesson, it was fantastic. The way they are being informed, the behaviour of the teachers and also the kindness of everyone is unbelievable...

BESA really encourages the children to be independent. It recognises skills and talents and helps develop them

Very good school. The best.

BESA does a good job of addressing the individual needs of my child.

The feeling that BESA is like a family, the learning of the children is great.

The children learn how to learn. This will be very helpful for them during their life. The way they learn provide to increase their self-esteem and self-confidence.

The teaching staff are very friendly and approachable. The kids are happy and feel safe.

You try to make the children happy and make them enthusiastic for learning, which is so important to keep them motivated. Furthermore it is an open school, I have the feeling our comments and suggestions are taking seriously

I like BESA's wholesome approach to education. The kids are happy and stimulated, and they are learning important life skills. The kids also feel welcomed and they consider schools as their second home. We also like the nice sense of community among parents and staff.

I personally love the school curriculum and the teaching methods.

I am very happy with the school. I like the fact that my child is taught independence as well as all the golden rules, and appreciation of multicultural environment

Children learn serious things in an interesting and funny way. Children feel well treated, respected and encouraged to learn. Children are exposed to nature, they do sports, music, lots of interesting clubs.

Staff at BESA are strong at encouraging a welcoming environment and enthusiasm for learning among children.

Children learn to be independent learners. They are confident and -very importantly- also feel confident to ask questions. The way learning is organised, enables the children to make the link between what they learn and the world outside school.

We love it. The level of communication is just right. We feel welcome when we come into school. Our son is very happy.

We think you are spot on and are pleased that you continually assess where improvements could happen and the feasibility of changes.

I hope my second child as his brother could have the chance of breathing the air of love, respect and the best of everything in this school. I am sure that at the end of eight years we shall not be able to find the best words how thankful we are to BESA...

Everything in the school is quite impressive. So far, I have found the management and the teachers very cordial to hear the parents. I am fully satisfied with BESA.

Thank you for making BESA such a welcoming environment!

Special thanks to BESA staff for their endless commitment and professionalism.

Thank you for what you invest into my child and the others - I can't say enough good about this school to other parents.

Love the school to pieces, best school in the world.

You are more than a school; you are a family...a community...it takes a village to raise a child and you are our integral village!
