

We asked our parents what they think we do well at BESA, as part of our annual parental survey (March 2016). This is what they told us!

Pretty much everything! Great atmosphere, extremely dedicated teachers, real focus on learning, wide-range of activities both within and extra-curricular.

I love the environment at BESA. The clubs are fantastic and I feel like my kids are part of a great community. Communication is great and overall things are run very smoothly.

The size of BESA, the curriculum, the leadership, the staff, the woods. The fact that BESA values holistic approach to education.

My child loves books thanks to BESA. I think BESA teaches good manners to children.

We have confidence in the decisions of the BESA Management. I understand, they are doing their best based on their expertise.

The school does a great job of encouraging the children in the areas in which they excel and giving additional attention where they need development. I am amazed at how much time teachers put in to support trips, competitions, and performances and other areas that could be considered "extras." Also, the approach to using the woods and other outdoor space at BESA is fantastic. I love it that they play in the snow.

Teaching children how to think and how to become an independent person with his/her own opinions. I also like how BESA teaches children how to express themselves.

Children are very happy at school and improve self-confidence.

I like that my child learns outside a traditional "classroom" environment. BESA has wonderful programs/events like the "book event" with James Mayhew, musical programs, weekly parent's workshops, costume parties, etc...

It feels like a small school with a strong sense of community. All of the teachers and staff that we have contact with are very friendly, approachable and willing to help. The resources used during lessons are fantastic and we particularly like the use of the outdoor space for learning.

I think you do an excellent job of welcoming new students to school. My child is very happy with the variety of activities he participates in both during school hours and in clubs.

BESA has great teachers, a great curriculum, and great facilities.

It is normal to be kind to each other and helpful and that is very special and helpful for feeling happy for our child.

Excellent school.

Provide a great learning environment. Caring and understanding staff. Fabulous projects and a lot of creativity. Great methods to learn.

School culture is good and all participate-all hands together.

I found this school wonderful. The teachers are so professional. Thank you.

It's an exciting school, where there is always something happening. Children feel respected. Relationship between staff is very good.

I think the overall approach towards the students and their learning is pretty good. The encouragement for the students' active involvement and the involvement of the parents are also the points we do appreciate.

BESA is particularly successful in raising confident, happy and independent kids.

I love the school, teachers, staff, learning environment, etc. every day I'm impressed with something about the school, teachers, staff.

Teaching, making children happy learners, respecting differences.

Everything.

Thank you to all the staff at BESA for doing such an amazing job. Your school is an absolute role model and center of excellence. We will always remember BESA and hope to do you proud in the future!
